Re: Folsom South Canal (FSC) Connection Project

Dear Ms. Morrison:

After receiving the Notice of Preparation and Notice of Scoping Meetings, we submit the following questions:

1. Will the pipe go along the east side of the tracks that neighbors the winery?
2. How will the power to the winery be preserved? We have 12,000-volt power poles near the pipe line's course.
3. What will be involved in tunneling under the Mokelumne River? How big an excavation will be required for the tunneling operation?
4. We received Notice on Feb. 19, after the Scoping Meeting dates, are any more planned?
5. Assuming all the "red tape" goes fairly smoothly, when do you anticipate construction in our area?

Thank you for addressing our questions. You may either call Kris Perez at (209) 369-5861 Ext. 2420 with your responses, or fax them to (209) 369-0405.

Sincerely,

Jim Crandell  
Woodbridge Project Manager
